

Group02 - Moderated Usability

Events United

Bringing people back together

Our team:

We as a team will organize different events where people can get to know other people based on their interests. When we need expertise for one of our events we will hire people who know a lot about the topic.

We will outsource things like catering, security etc.

Our main focus will be our app where people will receive invites for events that are organized based on their interests. This will make it so that we don't need many employees.

job offers: bodyguard, event planner
